NIJ 0108.01 III / CEN 1063 BR6  
High Protection

**ACP**

## Superior ballistic performance

**B33 43mm** is a dual technology that incorporates special polymers and thermal treatments to the glass, generating the best BRG solution by optimizing the weight-thickness relation, improving ballistic performance, and increasing the durability of the product.

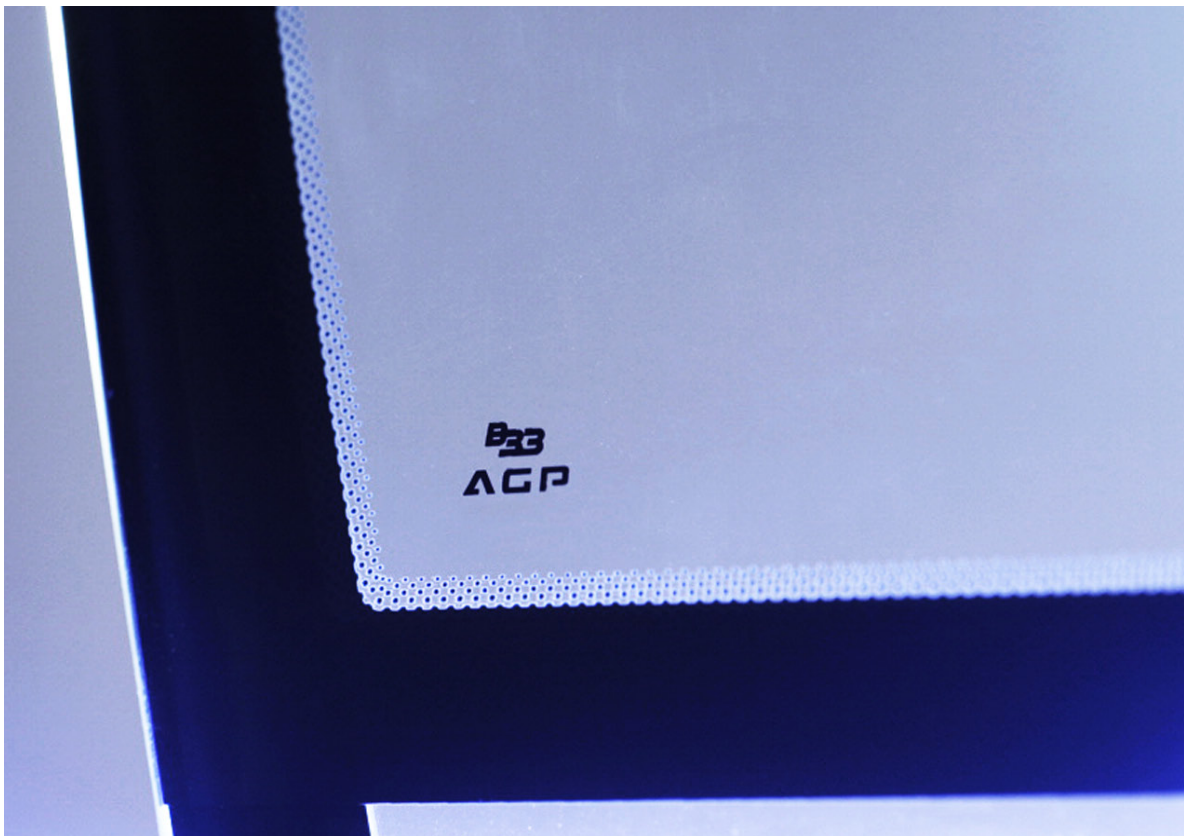

For more than 55 years AGP has been leading the production of Bullet-Resistant Glass by developing products with state-of-the-art technologies and advanced materials, bringing innovation to transparent armor solutions. All of this expertise has been included in B33, the most advanced BRG with exclusive technology.

# Captivating protection

## Security

**B33** enhances the user's safety by incorporating the most advanced research and technology features.

# Ballistic certifications

**AGP B33** is certified by the relevant national and international standards for your protection, fulfilling and exceeding market requirements.

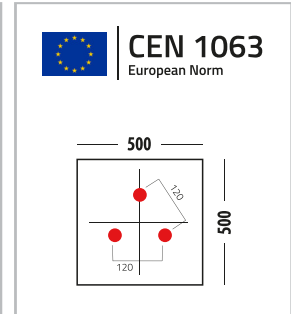

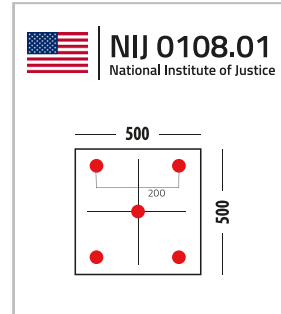

- **CEN 1063 BR6**
- **NIJ 0108.01 Level III**

# Superior protection

**B33** exceeds protection standards

**B33 43mm** enhances the user's safety by complying and surpassing the standard protection for its certification in one of the following ways:

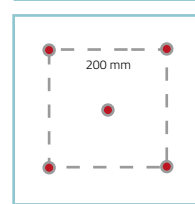

## Qualification criteria

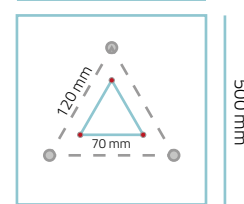

7.62 × 51 mm (M80/308 Win)  
FMJ/PB/SC Ball 830±10m/s. 3 shots  
Triangle: 70 mm MH2

5 Hits square  
500 mm

70 mm 3 Hits  
500 mm

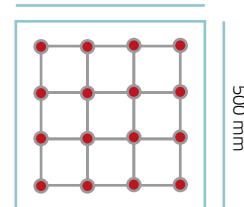

**Or**

5.56x45 M855/SS109 & M193 Ball.  
950±10m/s. 16 shots

16 Hits  
500 mm

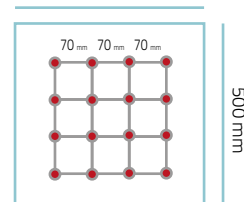

**Or**

7.62 x 39mm Lead core & MSC Ball. 720±10m/s.  
16 shots. 70 mm square

70 mm 16 Hits  
500 mm

## About AGP

---

For over 55 years, AGP Group has been a pioneer in the production of high-tech laminated, tempered and bullet-resistant glass designed to provide the greatest protection and durability, earning the trust of over 1.000 clients around the world, including OEMs in the automotive, military vehicles and military shipbuilding industries.
