ACP

Tailored to you.

Each person has a unique style and personality. A statement communicated through speech, actions, fashion and any form of self-expression.

Your vehicle is the perfect complement, an extension of yourself.

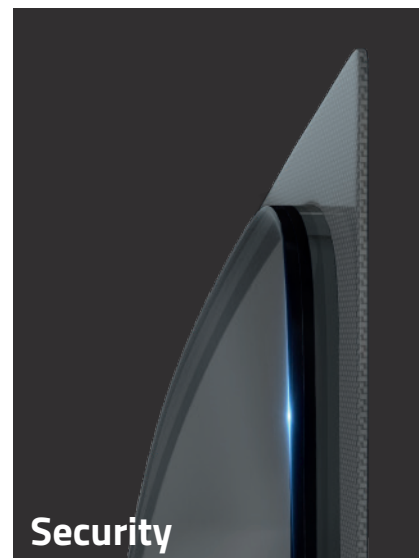

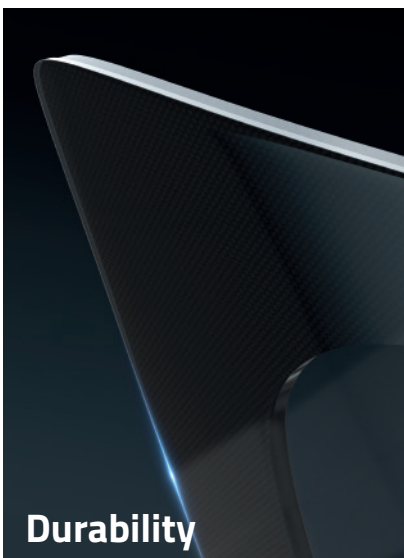

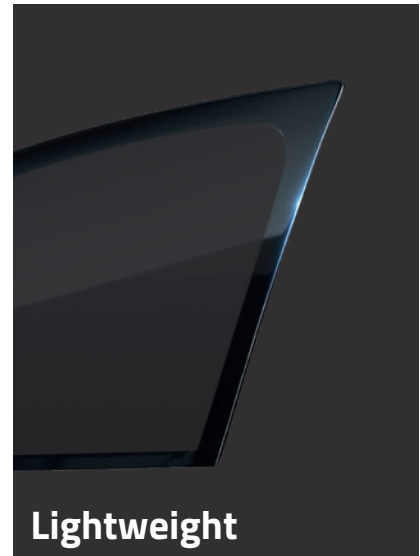

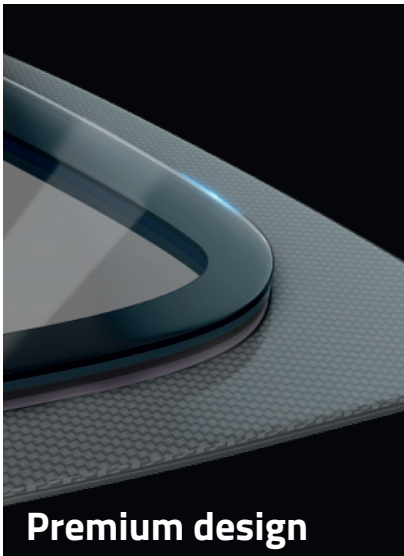

i-B33 has been designed to protect both your family and the essence of your vehicle.

Protection and design. No compromise.

It blends so perfectly with your vehicle's design like it belonged there all along.

Trusted by the best automotive brands, AGP applies its vast expertise in the development of original equipment to bring a new generation of bullet-resistant glass.

**i-ntelligent.
i-nnovative.
Simply i-rresistible.**

It's i-B33.

Our benefits

AGP's next generation
bullet-resistant glass.

i-B33 combines the latest
technology, performance, and
safety applications into a smart
solution for the most
premium range of vehicles.

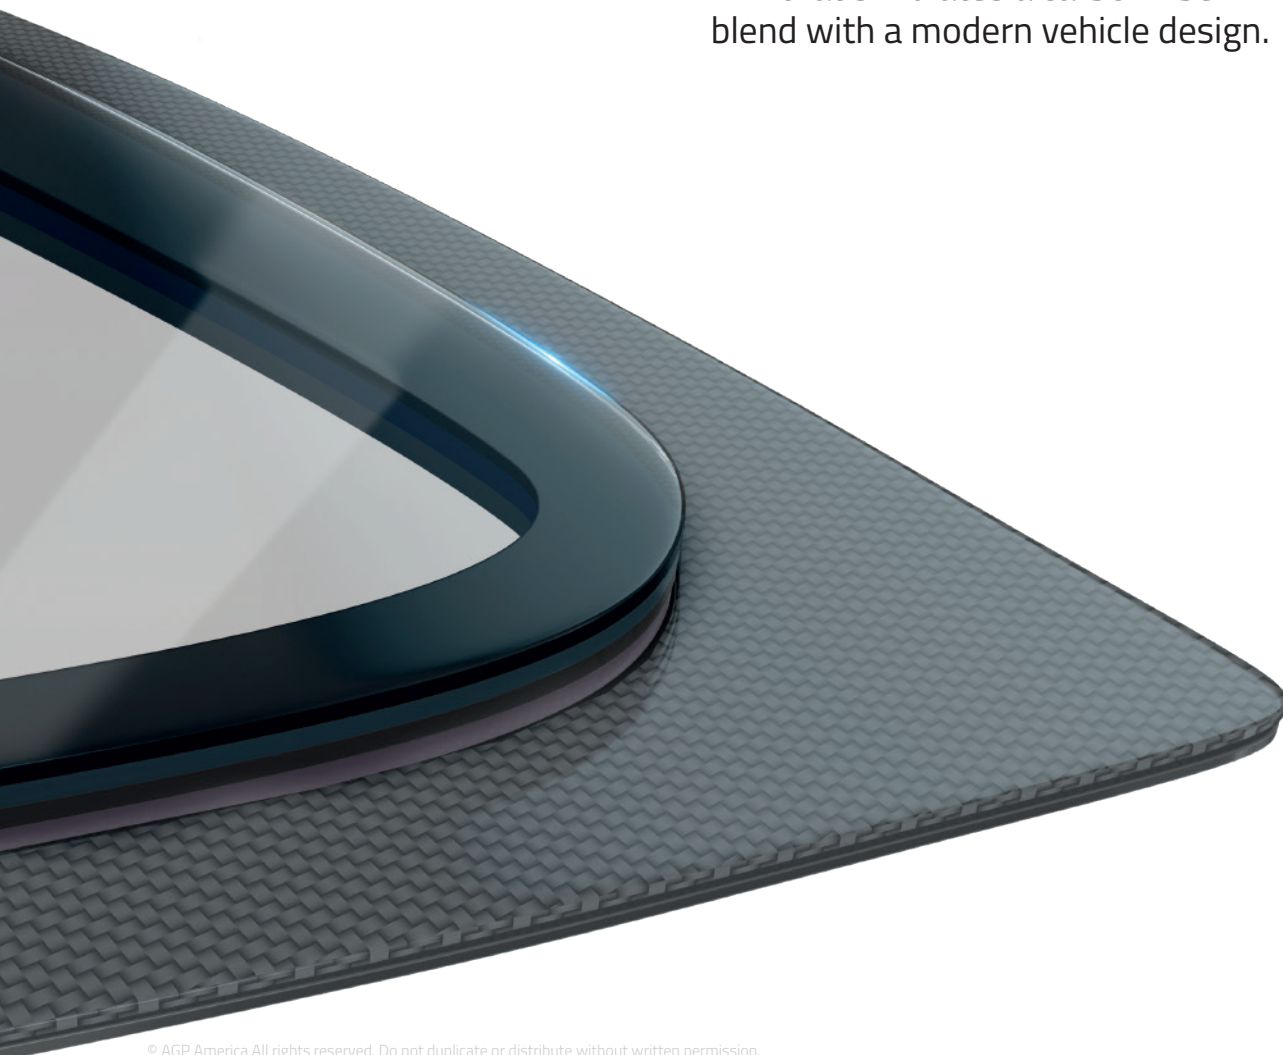

See. Touch. Experience.

Premium design

Take a closer look. i-B33 offers a new sensory experience with its modern design and premium finishes. A style that highlights the beauty of shape and form by vision and touch.

Thanks to AGP's clear edge technology, i-B33 displays a simple and stylish design made by clean lines on the edge, a true black, and a finer finish.

i-B33 has been designed to enhance not only the way the glass looks but how it feels, creating a beautiful, smooth finish with a perfectly soft texture and incorporating a film that simulates a carbon fiber finish to blend with a modern vehicle design.

Outstanding clarity.

Visibility

Your views couldn't get any better. By incorporating the most exclusive materials, premium design, and the highest quality standards, i-B33 offers the best optical performance.

Enjoy a complete view of your surroundings, while feeling safe and protected by the latest technology in armored glass.

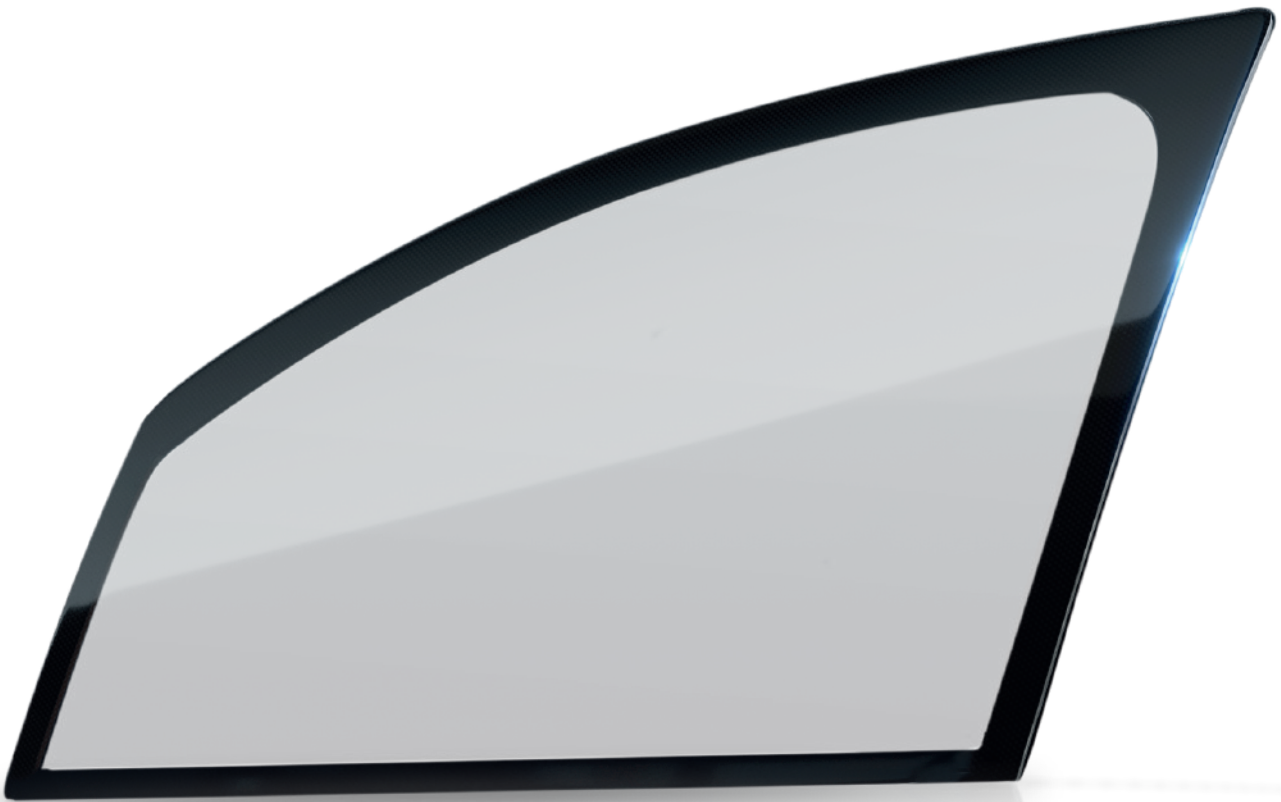

With great technologies come greater capabilities.

Lightweight

High-tech meets low weight. Discover the strongest and lightest ever bullet-resistant glass for ultimate performance.

i-B33 features state-of-the-art technology that reduces the aggregated weight, resulting in enhanced vehicle performance compared to other glazing solutions.

Lightweight yet durable.

Durability

i-B33 is designed to last. It's unique formulation and high-tech materials provide a lighter and more durable armoring solution, minimizing the risk of delamination and maintenance.

Choose quality and design, backed by
the N° 1 armor glass supplier worldwide.

Designed for ultimate comfort.

Comfort

Thanks to i-B33's enhanced lightness and material composition, experience the maximum level of comfort.

Lower your car windows without effort to enjoy the fresh air and natural light coming in or keep them closed for protection and put the city on mute, thanks to i-B33's acoustic properties. It's up to you.

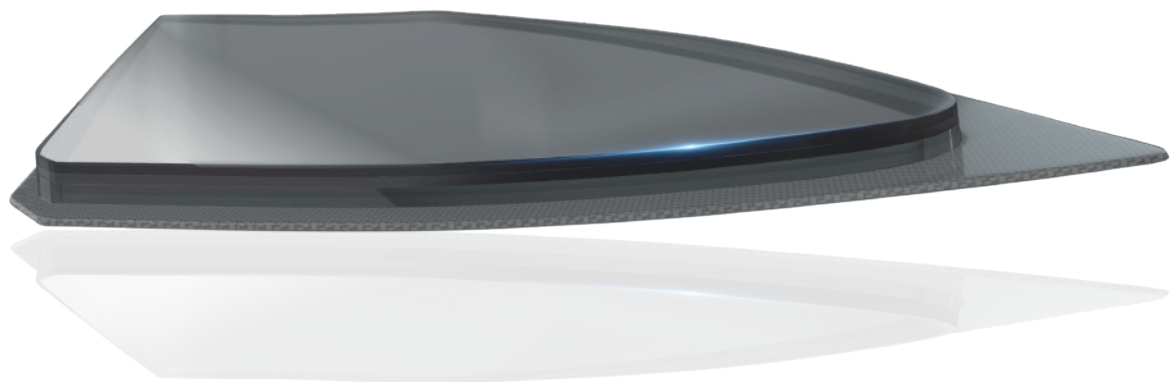

Captivating protection.

Security

Premium design, outstanding protection.
Good taste pays off.

i-B33 enhances the user’s safety by incorporating the most advanced technology features.

Ballistic certifications

AGP’s i-B33 is certified by relevant national and international standards for your protection, complying with and exceeding market requirements.
